

Excelssior Education Society's
K.C. College of Engineering and Management Studies and Research
Mith Bunder Road, Near Hume Pipe, Kopri, Thane (E)-400603

Name of the event: Awareness Program for Research and Development

Name of Speaker: Dr. N.S. Poonawala, Dr. Hansraj Guhilot, Dr. Arundhati Chakrabarti,
Dr. Shelley Oberoi, Prof. Aarti Bakshi

Date: 29/12/2017

Report on
“AWARENESS PROGRAMME FOR RESEARCH & DEVELOPMENT”

Date: 29/12/2017

Venue: Seminar Hall

Research is related with something to search in the existing work and come up with new conclusion and innovation. Development means improvement. Research is always associated with experimentation which gives desired results. Research is a planning and sequential study for the benefit of personal, professional and organizational point of view.

To be a researcher, one requires inspiration and dedication. Reasons of being away from research are the lack of guidance and information related to it.

To get awareness of and to run more and more research activities in the institute K.C. College of Engineering and Management Studies and Research initiated the cell named “Research and Development” for the knowhow of research related works in the area which is the specialization or area of interest for the faculties in future perspective.

In line with this venture the Research and Development cell arranged an informative session on “**Awareness Programme for Research & Development**” on 29/12/2017 in seminar hall.

The session basically enlightened on the aspects of why to do research, how it can be done, what should be the material to access it, how to go for the research step by step.

It includes the presentations by following eminent speakers

- 1) “Importance of research” by Prof. Aarti Bakshi (EXTC)
- 2) “How to approach for the entrance exams and sponsorship aspects ” by Dr. Arundhati Chakrabarti (H and AS)
- 3) “Small problems can lead to a great research” by Dr. Shelley Oberoi (Humanities and Applied Sciences)
- 4) “Industrial research” by Dr. N.S. Poonawala (DEAN IIPP-industry interaction participation program)
- 5) “How to do a patentable research” by Dr. Hansraj Guhilot (Principal, K.C. College of Engineering)

Session gave the overall idea regarding the research and the steps to go for it and about 50 participants took part in this session.

Research and Development cell members

1. Dr. Shelley Oberoi
2. Prof. Arati Bakshi
3. Prof. Rajiv Iyer
4. Dr. Arundhati Chakrabarti
5. Mr. Yogesh Karunakar
6. Prof. Prasannati Kulkarni

7. Prof. Pratap Nair
8. Ms. Puja Wankhede
9. Prof. Devika Roy
